

Athena Framed Cubicle System

Athena Framed Cubicle System

The Athena cubicle system is perfect for high volume usage such as leisure centres, schools and arenas; its robust build quality is proven to meet the everyday demands within the leisure market. Manufactured from high grade aluminium and solid grade laminate it is perfectly adapted to perform well in wet areas and is able to deal with drench cleaning situations

The sleek clean design and contemporary design means no visible fixings from the outside of the cubicles, the Athena cubicle comes with self opening or closing doors, a choice of 2 indicator bolts incorporating emergency opening and anti finger trap. Full height cubicles can be supplied with integrated anti peep systems built in within the design

Aluminium frame available in satin anodised and powder coated finishes as standard with bespoke colours available upon request, the boards are available in a wide choice of colours and finishes to suit any project or environment
