

# COMBINATION LOCKERS

An attractive range of lockers and components that can be easily arranged in different combinations to fit into specific areas where space and amount of storage is a premium.

# COMBINATION LOCKERS

## Selecting the right locker combination unit:

Ideal for use in an office or retail environment. Combination locker units are designed to meet a requirement by providing hanging space for outdoor clothes or workwear and secure locker space for personal belongings.

- Determine the number of locker compartments required
- Measure the space available for the unit
- You will now know the dimensions of the lockers that can be used
- Shelf depths will match the selected locker depth, size
- Finally, select the component options that best suit your needs

- 3no. 4-tier lockers
- A bridge unit
- A coat rail
- 15no captive hangers and a base shelf.

Locker Units				
H x W x D mm	3-Tier	4-Tier	5-Tier	6-Tier
1800 x 300 x 300	L180303013	L180303014	L180303015	L180303016
1800 x 300 x 375	L180303713	L180303714	L180303715	L180303716
1800 x 300 x 450	L180304513	L180304514	L180304515	L180304516

Components to create a Combination Locker Unit			
Component	300mm Depth	375mm Depth	450mm Depth
Top Shelf	TS300	TS375	TS450
Coat Rail	CR000	CR000	CR000
Captive Hangers - each	N/A	CH000	CH000
Captive Sliding coat hooks - each	CSCH000	CSCH000	CSCH000
Base Shelf	BS300	BS375	BS450
Bridge Unit - 1 high x 3 wide	BU300	BU375	BU450

When a bridge unit is selected, the door sizes will match the door size on the accompanying lockers.

All component options will match the width and depth of lockers used. Captive coat hangers can only be used on 375mm and 450mm depth combination units.

For 300mm units we can supply captive sliding coat hooks.
